

HEALTH CARE – MENTAL HEALTH
COMMITTEE REPORT

- Sherrod Beale gave a viewing of "Now Is The Time" at her home. Guinn Unger arranged a viewing at FLC.
- The Healthcare Committee has decided that educating ourselves and the public on the facts around the current health care climate, including current bills, is extremely important and we are directing our energy to activities which promote an accurate understanding of the facts.
- Guinn is currently working on a presentation regarding universal healthcare which can be "taken on the road" as members choose.
- We are also keeping the pressure on our politicians with calls, letter writing etc and planning on being ready to move into action for the 2018 elections.
- We continue to meet every other week and have a core group of about 8-10 members who meet.

Rosemary Fleming, co-chair
Healthcare Committee
